THE UNIQUE TOMO TEACHING METHOD

Speaking

- The only way to speak
 a language well is to
 speak it and as often as
 possible without being
 afraid of making mistakes
- Small-group classes
 to give you many
 opportunities to practise speaking
- "Speech shadowing", also known as language parroting, is a learning technique used in our lessons. You are made to listen to a native Japanese speak and right after that, repeat loudly the words you hear

Shadowing

- Use of interesting photos to teach sentence patterns
- Use of real life scenarios to make your speaking skills applicable and memorable
- With regular practice, you will be able to speak like a native.
